MEMORANDUM FOR RECORD

SUBJECT: Accreditation for Automated Air Load Planning System (AALPS)

1. References:

a. AR 380-19, Information Systems Security, 27 Feb 98.

b. DOD Instruction 5200.40, DOD Information Technology Security Certification and Accreditation Process (DITSCAP), 30 Dec 97.

2. Having reviewed by Certification Authority's recommendation and the security measures that have been implemented in the areas of security management, software, hardware, procedures, communications, personnel and personnel security, operation of AALPS and associated peripherals is considered to be within the bounds of acceptable risk.

3. Accordingly, I authorized AALPS to operate at the System High security mode of operation processing Sensitive But Unclassified Information.

JOHN S. SMITH

Deputy Chief of Staff

for Information Management
